Blessing of a New School

150th
Anniversary
EVENT

September 22nd, 2001

It was with confidence and faith that the Basilian Fathers responded to the educational needs of the young men of Toronto, over **150 years ago**. Today, those needs continue to be met.

A **renewed** St. Michael's College School was blessed and dedicated to the great glory of God. The blessing was invoked upon the new facilities of the school.

The largest and newest addition to St. Michael's is the new East Wing which includes classrooms, computer labs, the new library, staff offices, the staff lounge, the main office, as well as the music, art, and design technology facilities.

The first additions to the school were the science wing at the north end and the gymnasium facilities. The new dressing rooms and weight room were added in late 2001.

▼ This commemorative cornerstone was placed to be a lasting reminder to all of the dedication to Catholic education that is the tradition of St. Michael's.

The History of St. Michael's College School

It was Bishop de Charbonnel who set St. Michael's College School in motion. He arrived in Toronto in 1850 as the second bishop, succeeding Bishop Michael Power. His diocese extended from Windsor to the northern regions of Lake Superior. There were two parishes in Toronto, the Cathedral parish and St. Paul's parish. Three priests served the 8000 parishioners.

Bishop de Charbonnel saw the pressing need for Catholic high school education. In his plans for Catholic education, the Bishop thought of his former teachers in France. He had been educated at the College Annonay near Lyon, a school established by the Congregation of St. Basil, a community of priests founded during the French Revolution. This small group of priests fled from the ravages of the revolution to a mountain village called St. Symphorien de Mahun. In 1822, the priests made a commitment to live a common life in Christ. Thus was established the Congregation of St. Basil (C.S.B.), the Basilian Fathers.

As de Charbonnel came to know his diocese better, he decided to establish a minor seminary, a school for high school students who wished to study for the priesthood. In response to the Bishop's request for help, the Basilians in Annonay decided to send four of their most able men to Toronto. The group of four left Annonay in July of 1852 and arrived in Toronto in late August. And so St. Michael's has grown from the days of being a minor seminary to a high school which today offers a programme of studies which prepares a young man for university, but more importantly

for service to his community, to his country and to his God. In early 1852, St. Michael's College was established and was housed in part of the Bishop's house on Church Street.

The College soon outgrew the facilities of the Bishop's palace and in 1856 it was moved to Clover Hill, a property donated to the Basilian Fathers by the Honourable John Elmsley. Clover

1903 - CLOVER HILL

CLOVER HILL

Hill was outside the city at that time in an area now bounded by Bay, St. Joseph and St. Mary's streets. In 1881, St. Michael's was affiliated with the University of Toronto for post-secondary education. The high school section expanded much more rapidly than the college section, so in 1902 a new wing was added to the original building and the high school remained in this building until 1950.

It soon became evident that the post-war years would demand much of the school and that the Bay Street buildings were not equal to the challenge. At this point, the College School was separated from the College and in September 1950, St. Michael's College School opened its doors in new buildings at Bathurst and St. Clair Avenue where it is situated today.

In 1995, a capital expansion program improved the current facilities by adding several new classrooms, a Lecture Hall, a new Gymnasium, a new East Wing complete with classrooms, new Music and Art facilities, and Administrative offices. Today's school offers the latest technology-based research and application tools.

St. Michael's College School remains a model of Catholic education in Canada. The school remains the only independent boys Catholic school in Ontario, and one of only a handful in the country.

On September 15th, 2002, St. Michael's College School celebrated its 150th Anniversary.

ST MICHAEL'S COLLEGE SCHOOL

February 23rd, 2002

President's Address

Fr. Daniel Zorzi, C. S. B.
President
St Michael's
College School

For which of you intending to build a tower, does not first sit down and estimate the cost to see whether he has enough to complete it? Otherwise, when he has laid a foundation and is not able to finish, all who see it will ridicule him saying "this man began to build and was not able to finish"

Luke 14 : 28-30

Facing all directions at once, the yellow brick tower of St. Michael's College School stands prominently and neatly as it reaches high from its solid foundation into the shapeless sky. The intention to build this structure many years ago was made real with the school community of St. Michael's. And so, the tower becomes for us a type of metaphor, as it reaches to conquer the vastness of the sky and to make its mark.

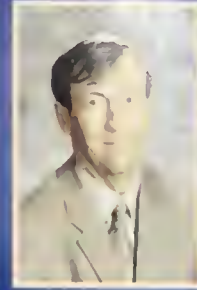

So too, the school, laid on a firm foundation, soars to accomplish great things in the ever elusive face of education. In a certain sense, our community also reaches for the top each and every day, cutting out its place in the history of Catholic education. In this issue of The Tower, I hope that the pictures and scripts are gentle reminders of this year past in which St. Michael's has continued to reach new heights in advancing its mission of teaching goodness, discipline and knowledge.

We pray that like the builders of the tower, we will bring our project to completion once laid upon the foundation of the teachings of the great master, our Lord Jesus Christ. Best wishes to the 2001 graduating class. Enjoy this edition of The Tower, savouring the rich memories that each page elicits. May each of us walk proudly into the future knowing that our life continues to be built on the firm foundation of St. Michael's College School.

May we be a tower of strength for those whom we meet.

Fr. Daniel Zorzi

Principal's Address

Mr. Joseph Brisbois
Principal
St. Michael's
College School

“Society is in need of strong Catholic leaders.”
“This school is blessed.”

At our opening liturgy this year we talked about respect and community. St. Michael's College School is a community that is blessed with many gifted individuals. When these talents can be shared and developed the school benefits immensely. The ultimate strength of the community will be measured by how effectively people can work together.

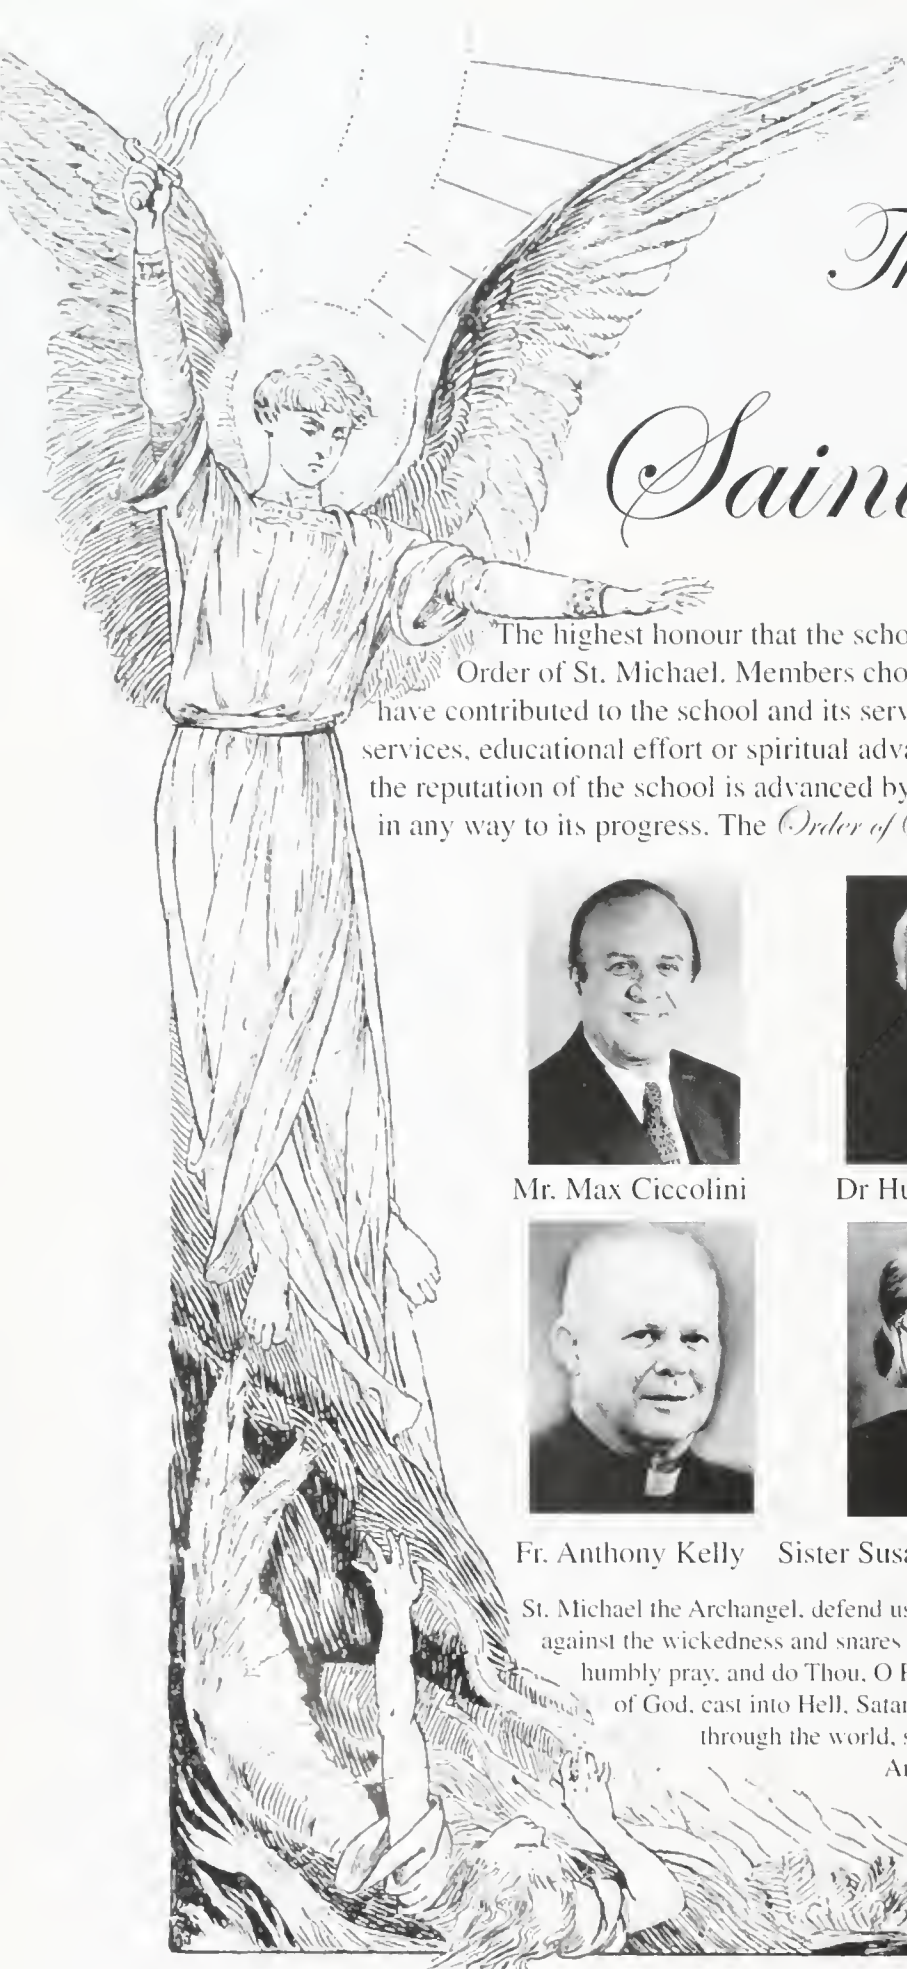

The Catholicity at St. Michael's is extremely important to the overall life within the school. Society is in need of strong Catholic leaders. The day-to-day approach of life at St. Michael's has a focus that shows our commitment to our faith. We are fortunate to have Basilian Fathers as members of our school community who work with the staff, parents, and the students to provide a complete Catholic education. The development of the students at St. Michael's prepares them with the opportunity to impact positively on the community life outside of school.

Respect for one's own talents is an important part of how we interact with others. The individual development of students within the school promotes the concept of self-worth which ultimately allows a person to be proud of who he is. Regard for one's inner self then allows us to see the dignity of the other individuals that we meet. A community that develops with an appreciation for individual worth allows a strong sense of togetherness to be present. My wish is one filled with hope as we establish an approach that respects the gifts and talents that each individual brings to the development of a strong community.

This year represents the 150th anniversary of St. Michael's College School. The school has come to be known as an institution that has a reputation for excellence in Catholic education. The efforts of the Basilian Fathers, staff, alumni, parents, and students have contributed immensely to the tradition of St. Michael's.

Fr. Cullen and the yearbook staff are to be commended for their outstanding effort in publishing The Tower.

Mr. Joseph Brisbois

The Order of Saint Michael

The highest honour that the school bestows on a person is the Order of St. Michael. Members chosen for this Order are those who have contributed to the school and its services on the basis of material help, social services, educational effort or spiritual advancement. It is obvious that the reputation of the school is advanced by the efforts of all who contribute in any way to its progress. The *Order of St. Michael* recognizes such people.

St. Michael the Archangel, defend us in the day of Battle: Be our safeguard against the wickedness and snares of the Devil. May God rebuke Him, we humbly pray, and do Thou, O Prince of the Heavenly Host, by the power of God, cast into Hell, Satan and all the other evil spirits, who prowl through the world, seeking the ruin of souls.

Amen.

The Prefects

OF ST. MICHAEL'S COLLEGE SCHOOL

Fr. Fulton
◀ Prefects
Moderator

The Prefects of St. Michael's College School are selected from the older students to act as emissaries of the school, to provide exemplary conduct for new and younger students and to promote school spirit in every area of the school.

The Prefects donate a lot of their time to the school's activities. They have been more active this year because of the many visitors viewing the new school. The Prefects have volunteered to act as tour guides and have given a great deal of helpful information to visitors. When parents are accompanied by prospective students the Prefects are a positive influence for the school.

Background

Inherit the Wind is one of the great courtroom dramas of the American theatre. Historically adapted from the well known "Scopes Monkey Trial" in the summer of 1925 at Dayton, Tennessee, it is an episode in American political, legal, and religious history which is played out in the battle between biblical fundamentalism and scientific evolution.

John Scopes, a high school biology teacher, was accused of criminally violating Tennessee state law prohibiting the teaching of evolution in the class room. Tennessee was and is a state in the traditional "Bible Belt" of America, politically and religiously aligned with Biblical fundamentalists. The state hired William Jennings Bryan, a political giant and three time presidential candidate, to prosecute the case. To counter this move, the famous Chicago lawyer Clarence Darrow, volunteered to defend Scopes at his own cost. Journalists from all over the world arrived in Dayton to cover the trial of the century.

Mr. Nicholson

Teacher, Coach, Photographer

Mr. Nicholson has become famous at St. Michael's for his work with students and teams. He has been the photographer of team photos, athlete shots, and theatre productions. His photos can be identified as organized, balanced, and sharp.

Mr. Nicholson's presence in the classroom began in 1971 when he was teaching at Our Lady of the Assumption. He transferred his skills in the teaching of English to St. Michael's where his students enthusiastically embraced his down to earth practical methods. This legend of a teacher is sure to be remembered by past students for years to come. He taught his students that correct grammatical formation was the basis for proceeding to higher learning.

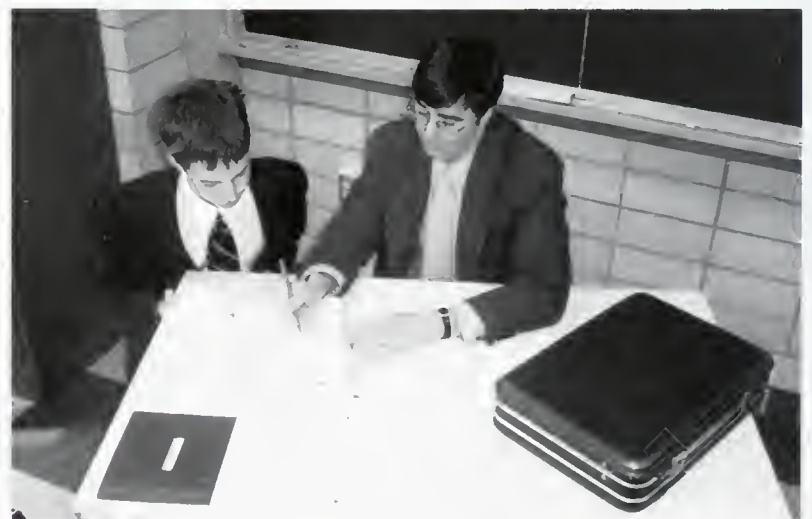

His coaching skills included championship teams in hockey, football, and volleyball. Mr. Nicholson's talent and love for photography have captured countless memories for students. After 14 years at St. Michael's, Dan Nicholson now embarks on a new career in photography.

St. Michael's College wishes Mr. Nicholson great success in all that he undertakes.

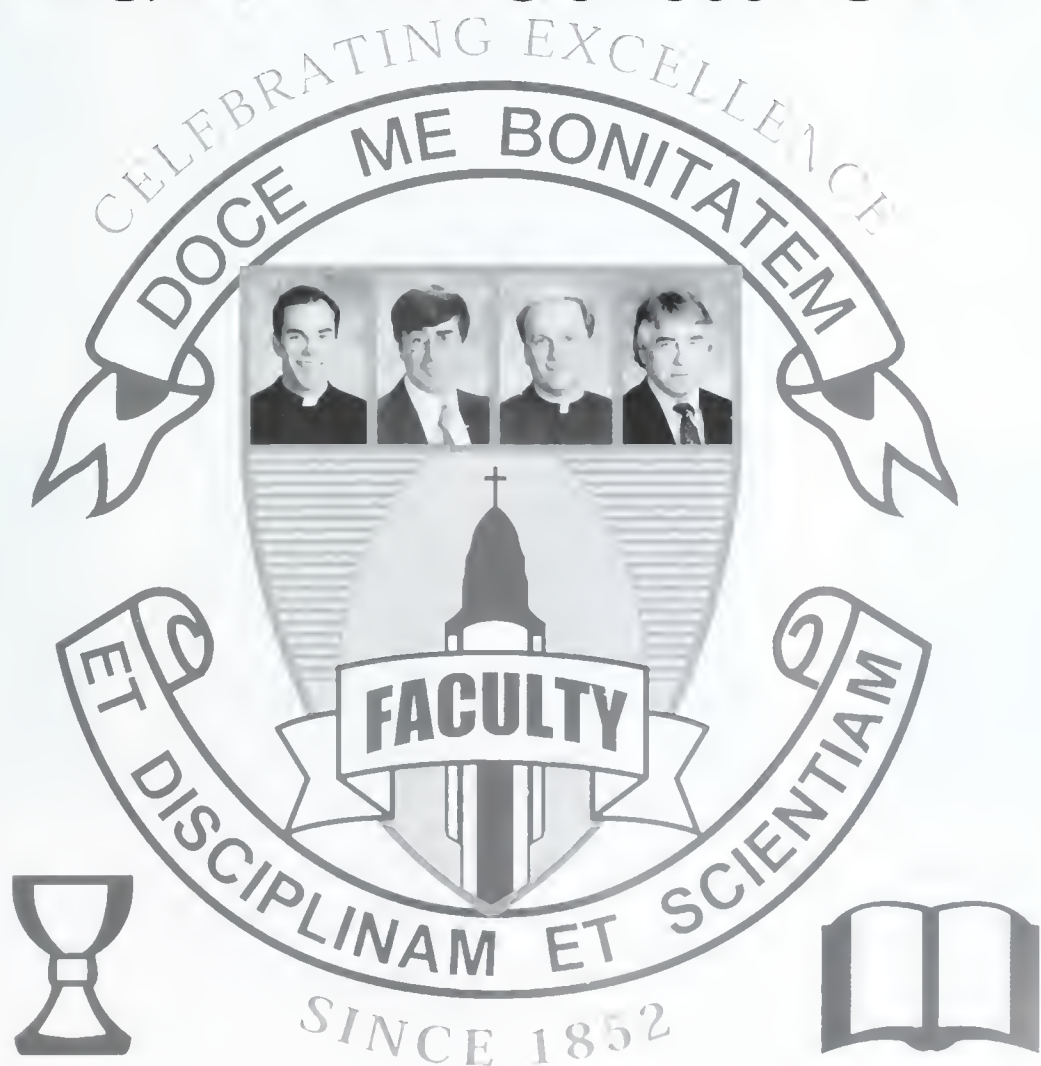

*Good luck in your
future endeavours.*

SMC

GRADUATES

Michael Alati

David Allegranza

It's hard to believe that 5 years have gone by. I especially thank my parents for the opportunity to come to such a great school. Thanks St. Mikes for preparing me for the long road ahead, and thanks to my friends for making it fun. I leave you with an old Italian saying, "Tutto è bene cio che finisce bene" (All is well that ends well) Siciliano FB

Lucio Amato

Wow, high school's already over and so many things to remember. Cuba, Pete Yorn, Happy G, soccer club every Friday, brain filter, Tony Bastoni, heart attacks, calcietto tournament (third place, oh yeah!) and so many more. Thanks to all my friends, I'll never forget you guys, and my family for making these the best and most unforgettable years of my life.

Roberto Andreaecchi

Five years and \$40,000 later, I still can't believe it's over. Gratitude must be expressed for the steadfast love, guidance, and support from Dad, Mom, Paul, Zia Rosina, and all of my family. Further, a special thanks to my friends who have made these days at SMC worth remembering: best of luck in all of your future endeavors. The memories include: Gr9 French, Gr11 Ancient Civ. Italy '01, Cancun '02, OAC civvies day, Briscola&Scopa in the Caf, Bocce in the courtyard, and so many more. Ci Vediamo

Brian Arcand

St. Mike's has been a special unique experience. I wouldn't trade the friends I've made, the knowledge I've gained, and the sports I've started for anything in the world. I wouldn't be where I am today if it wasn't for the continual support of my parents, teachers, and coaches: Thank you. I would like to give a special thanks to Fr. Mulcahy for introducing me to archery and to Fr. Burns, Joan and Gary for helping me reach my full potential. Good luck Boys, and always remember: SMC Rules!!!

Jonathan Arrarte

Life is a race, a great competition. We have to fight for everything. Getting good grades in high school, getting into university, finding a job. It's all a struggle for you against another person or a hundred other people. In order to triumph you need pride, energy and intelligence. St. Mike's has instilled this in each student that has walked the yellow brick halls. I'd like to thank my mother, my teacher, friends and family. "In the book of life, the answers aren't in the back"- Charlie Brown

Terry Au-Yeung

Better to have tried and failed than to know you could have done better but did nothing at all.

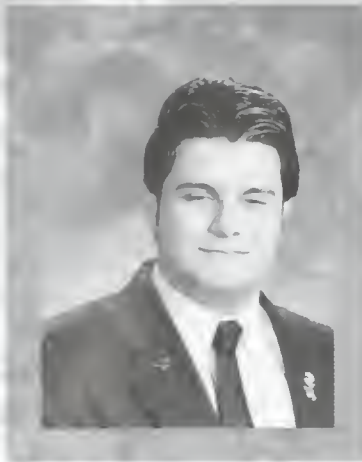

David Baldesarra

If I did not enter this school as an MDI, I am leaving as one. This school has shown me what the real world is like, and I hope that I always remember that. I would like to thank the most important people in my life for making high school possible: my family and friends. I would not have made it this far without you. I owe you everything. Thank you

Julian Barkin

I have now become a true St. Michael's man. Primarily, I thank God for His grace & infinite love. Secondly, I thank my parents, for I would not be where I am & who I am without them. My academic maturity I attribute to the dedicated SMC staff, especially Fr. Zinger, Mr. Vitullo, Tessaro, V. Pagano & Oatt (four great years of Sr. Jazz). D. Allegranza, V. DiGregorio, A. Meneguzzi & J. Hendricks, your friendship is invaluable. To SMC 2002 grads, "Be the change you wish to see in the world." Gandhi

Francesco Battaglia

It is hard to believe it has been 5 years already. Thanks to God, my family and friends for your love and support. Good luck to the 2002 graduating class. I will always remember this place when I see my dream car Firebird TransAm. P.S. Thanks for the free parking!

Raymond Bice

It is now over! Five years gone... Well I think it's all been worth it. I'd like to thank all the people who made these years go by a little faster. I'd also like to thank my parents for paying and supporting me through it all. But most of all I'd like to thank all of my friends present and past at SMC. You guys have made it all worth it. CHEERS!!!

Greg Bielawski

Its hard to believe that its been 5 years already. The time seems to have flown by. This year, we leave St. Mikes to continue our education. However, I will never forget the friends I have made, the things I have learned, and the experiences I have had. Thank you to everyone for making high school the best time of my life.

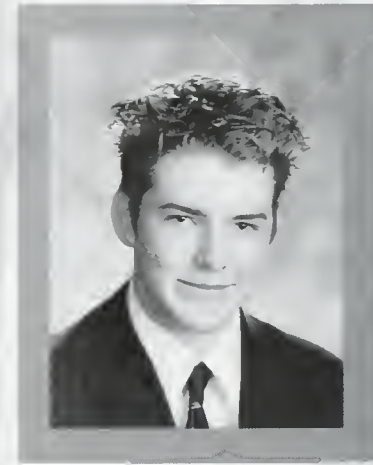

Justin Borges

I'm finally a St. Michael's Man, a product of five years of the sacrifices and dedication of my family, friends and educators. Thank you to Mr Lewis, Mr Barry, and Mr Sheridan. I'd like to thank the men, women and fellow social delinquents of SMC for all of their education and entertainment. Caecilius est pater. When in doubt: glaciers. It's a perfect day for bananafish! SMC + Cuba = March 2002. Yeah afterschool soccer club! Schutzt unsere umwelt! Clearly I still can't differentiate!

Matthew Bridle

Now that my years at St.Mikes are done I have alot of people to thank. My parents I owe so much for their understanding and support throughout these 5 years. My friends for helping not only with the work, but sometimes to get away from it (Thanks padre) Never thought I'd thank some of the teachers, but both Sheridan & Bisser have been there for guidance and help. Thanks for all the memories boys, especially Ireland 2001, those long rides with the GO crew & those last period spares that started at 8:30

Craig Burton

"Education is an admirable thing but it's not as well to remember from time to time that nothing that is worth knowing can be taught"-Wilde. Cheers to all I leave behind at SMC it has been jokes here for the last 5 years Thanx to all those who helped me get by without you I'd still be dazed and confused. Ireland Montreal Cancun (Stubby!) and SF1-4 have been great times "Goodbye cruel world I'm leaving you today..I'll see you on the dark side of the moon"-Floyd

James Campbell

Robert Capobianco

Thanks Mom & Dad for all the love & support you have given me, especially at times when I've seemed undeserving of it. It is your sacrifice that has truly allowed me to make it this far. It's definitely been a great 5 years and it's through the friendships I've made here that the spirit of SMC will always be apart of my life. Finally a special thanks to Mr. Smyth, who answered all the hard questions, even the hard ones...(whose answers confuse me more than the questions themselves).

Matthew Cappellucci

First and foremost, I would like to thank my parents for giving me the opportunity to attend St. Mike's. Secondly, I would like to thank all my teachers especially Sr. Frances, Mr. Thompson, Mr. Narducci, Mr. Fischer and Mr. Vitullo. Lastly, I would like to thank all my friends who made my experience here a great one. I leave with this quote: "My school days were the happiest days of my life; which should give you some indication of the misery I've endured over the past five years." Paul Merton

Paul Carbonelli

It seems like only yesterday I was retrieving a forgotten book only to be greeted by twenty OAC's yelling NINER! But the memories will remain strong: Grade 10 Italian with Di Leo, tiger rolls in the rain and 20:1 odds at the scopa table. Through it all I've learned a lot. Always hold the money in Tessaros hockey pool, Mr. Lee isn't Asian and WOW is the only word necessary in an English paper (Flare is never to be used). Thanks go out to my parents, friends and teachers. Good luck and God Bless

Michael Carlesimo

It seems like yesterday I looked down these yellow halls a nervous young boy. Now, as I leave I walk down the hall knowing what it takes to be a St. Michael's man and I leave with goodness, discipline and knowledge, ready for new challenges in life. Thanks to my loving family for their support over the years, without them I could not have done it. Also to all my friends, you know who you are, thanks for the incredible times! And for one last time: "It's time to do...the BUBBA-LOU!!!"

The only place success comes before work is in the dictionary, five years at St. Mike's was more than enough to make me very sure of this. These past five years here was time well spent, all that I have learned and all of my experiences have expedited the realization of my life-long dreams. My undying thanks go out to all of those who have helped me get here thus far: my family, friends, teachers, priests, and, of course, God, who has kept me true to the faith - to those around me, and to myself

Andy Chiodo

Grade 9 - The best first year a 14 year old could have had. Sr. A OFSAA Hockey with Spez, Doyle, Foxy, Tank, and Spinoz made it all that it was.
Grade 10: 11 - Not so great. I wanted to leave, school felt like a bad job. I regret not playing for the Buzzers, it wasn't fun playing against your own blood (eh Darcy?). It all turned around in 12, my OHL Rookie Season was the time of my life, once again I felt I was a part of the school and things were great. OAC was icing on the cake, everything came together, the good the bad, all resulted in a feeling that I will never forget. Thanks Mom and Dad, I love you both, your love and support is much appreciated. Thanks teachers for being friends outside the classroom, you know who you are, in fact you're probably the ones taking a second to read my quote. And of course my boys - Serozy, Timmy, Fatzy, Dem, Knowlzee (Cooner), Poppy, Klinker, Boods and Matty Anth, Steve, Adam, Dino, Matt, Maxi, Dave and Antony. Thanks everyone. Later!!

Mark Chire

A word of advice to the rookies of SMC: "empty your mind, be formless, shapeless, like water." - Bruce Lee. In other words, just be flexible. With my 5 year sentence finally up, I would like to thank my teachers and friends for their advice and help. And of course, a special thanks goes to my parents for their endless support. Memorable times include: Mr. JZ and Mr. MR showing me around in Europe, J. Mar singing "Taste and See", Father Zinger's watergun, and my 1st show in Rock Night.

Without the Grace of God, two loving and devoted parents, many loyal friends, and a great deal of outstanding teachers; none of my memories at St. Michael's College that I will forever cherish would have come to fruition.

"In the end, each of us will be judged by our standard of life, not by our standard of living; by our measure of giving, not by our measure of wealth; by our simple goodness, not by our seeming greatness." Five years from now, many of the invaluable memories we have shared amid these yellow bricks will go unnoticeably forgotten. However, treasure the qualities synonymous with the SMC spirit that have been instilled in us - goodness, discipline, and knowledge - for they will enrich our characters and guide us for the rest of our lives. Thank you to my family, friends, and teachers. Good luck to all the grads.

"The unexamined life is not worth living" Socrates
St. Mike's has prepared me for almost every challenge that life may throw at me. It has also been filled with memories that I will never forget. WHERE IS MY OREO MAN? Comrades, we have had an interesting adventure, perhaps one worthy of being immortalized in song by a traveling bard. Well maybe not, but good luck everyone, happy hunting and thanks St. Michael for making my time at SMC so great. Major McLean wishes all the brave adventurers heading out on the road of life a safe journey. May fortune's favour shine on you!

Start trying and if you already have then, in the words of W. Churchill "NEVER GIVE UP." Oh, but make sure you're trying for the right thing. From what I understand, reading a couple quotations will not change you automatically into what lies in your heart of hearts and till now has been drowned in spiritual cholesterol. It's a life's work. But maybe reading from, say, the Oxford Book of Quotations would do the trick? Mind accents?

Andrew Meneguzzi

Amidst all the great friendships, the talks, and what seemed to be the highest and lowest points of my high school years, I feel that I have matured greatly. The school as well as these individuals have pointed me in a good direction for the life I have to lead ahead of me, so to the grads I say good luck in your future endeavours, and Thank You to all.

Anthony Merlocco

I thank God and my parents. 5 years, thousands of yellow bricks, 2 shades of blue, and a chance to shape one's self into a virtuous man. These are the memories of a St. Michael's Man. I truly hope each of us has become one. It takes much to shape a man from a boy: knowledge comes with experience, discipline with respect, and goodness with love. Good luck to you. Whichever path you find yourself on my prayers are with you. - Stephen King "It comes to a simple choice really, get busy living or get busy dying"

Janusz Michalik

Although SMC is one step in a long journey, it shaped the rest of my life. This all could not have happened without the support of my parents, friends & the staff. SMC was a myriad of experiences & full of great memories. I'll miss Nard's conspiracy theories & the Double Blue spirit. The yellow bricks have burned their mark in me, which will forever be felt. I'm going to continue to travel wherever the wind blows until I see my final sunset. Until then, I look forward to seeing many more rises.

Here is a brief list to live by to make life at St. Mike's much easier: 1 Rip the top button off your shirt. 2 When taking up homework say you had trouble with #7b. 3 "GO Train Delay Sir" 4. "I'll bring you a note tomorrow" 5. The visitor's washroom isn't only for visitors. 6 If you want something done, just yell "You won't do it". Thanks for the memories.

Strange how we move our lives for another day, like skippin a beat. It turns out not where but who u r w/ that really matters. One day we will all meet again, resting high above the clouds w/ no restrictions. Thanx mom & dad for support. Brier thanx and I luv u. "Celebrate, cause life is short but sweet for certain" DMB

And even if we are occupied with more important things, if we attain to honour or fall into great misfortune-still let us remember how good it was here, when we were all together, united by these loving feelings, which made us, for the time we stood together, better perhaps than we are." "Live as if you'll die tomorrow, dream as if you'll live forever." It has been a journey, at times quite bumpy, but somehow I have reached the end of this era of Double Blue. Even though the trek might be over, the memories and lessons learned will never be forgotten. Thanks to God, my family, friends, and teachers. "So make the best of this test, and don't ask why. In the beginning I was forced, 2 come 2 a place that I didn't endorse. But over time it became a blast, and it saddens me 2 know it will not last. Thanx 2 my parents 4 footing the bill, and to all the boys for keeping it real. The grads of 00-03, D.N, D.B, A.C, R.I, M.A, D.T, A.P, M.S, M.C, MnS.R and S.B. Some of which were orchestrated by me. Although my assignments bore my name. It was those behind the scenes that deserve all the fame. Even this quote in the form of a poem, I must confess was not written alone. And now my stay at St. Mike's is about to expire. In the words of Al Pacino, "I retire."

David Shanly

Five years are gone and I'm sad say it's time to go. "Tis education forms the common mind, Just as the twig is bent, the tree's inclin'd"-Alexander Pope. The following behaves not as an obituary, but the opposite, for a new man is born. If education guides the burgeoning sapling of a student, then a St. Michael's education directs that growth to the heavens. To the graduates: cherish what you have taken, and do not let its potency lay inert. May we all speak with the triumph of St. John "Be of good cheer, I have overcome the world"

"To learn, you must study, but to understand, you must observe." Life is full of surprises, some are positive and others are negative. You never know what will happen next, that's why you should live everyday to the fullest extent, and learn as much as you possibly can. I have managed to do this not only by myself, but also with the help of family, teachers, and friends. The five years at SMC went by in a blink of an eye, but the memories will be cherished for a lifetime.

Mark Zochowski

Throughout the last five years spent amongst these historical yellow bricks there is a lot to be thankful for not the least of which is my St. Mike's education. It's hard to believe it's over, but I am glad to have had the privilege of spending these last few years with the most caring, knowledgeable and Christian like of people. Special thanks go out to all my teachers particularly; Mr. Shannon, Mr. Pagano (both), Mr. DiPero, Mr. Fitz and Father Zinger.

This year was a very busy one for the Art Club. We began the year with an extensive project on silk screening. Students had the opportunity to design and print their own T-shirts. Ceramics was next on the agenda. The students created various objects in clay and then glazed them and dried them in the kiln. The final project of the year was creating the sets for the two drama productions *Inherit the Wind* and *Oklahoma!*

Chaplaincy

The Chaplaincy Club is an integral part of St. Michael's College School. The Club is responsible for assisting and promoting the various liturgies celebrated at the school. The members seek to grow in their spiritual life by applying their Christian principles to the tasks at hand and to those around them. The members involve themselves in the social and spiritual life of the school by their commitment to various organizations such as the Good Shepherd Refuge and The Out of the Cold Program. The Chaplaincy Club is also responsible for the development and maintenance of a "Chaplaincy Newsletter." This publication is instrumental in relaying pertinent religious and spiritual matter. The members of the Club go to the daily Masses that are offered at the lunch periods and assist the priests.

The 1987–88 school year (the same year Mr. Shust started working at SMCS) marked the beginning of the SMC Computer Club. However, it was in 1994–95 that the club transformed into what it is today—a Computer Programming Club.

Members take part in national and international programming contests.

The two main contests are:

1. University of Waterloo Programming Contest. This contest involves writing 5 difficult programs in 3 hours. U of W uses this contest to choose a group of high school students to represent Canada at the International Programming Olympiad. The Contest takes place sometime in February or March, yearly.

2. American Computer Science League. This contest consists of 4 mini-contests during the year (December, January, February and March). Each contest has two parts: a written section (30 minutes), and a programming section (3 days). The written section requires students to study computer material outside high school curriculum and the programming problems are quite involved. The club enters at two levels: intermediate and senior—and the top three scores are submitted as a school score. Competition is mostly among the top schools in North America and some European schools. The top 15 schools in each category are invited to an All-Star Competition held in the United States on Memorial Day weekend. St. Michael's has been invited every year since it joined the All-Stars, but no SMC team has yet been a medal winner at this level. The club requires approximately 15 hours of participation.

The Duke of Edinburgh Award is an international award that recognizes initiative, achievement, and excellence in four areas: skill development, physical fitness, community service, and expeditions. Currently eighty-five students at St. Michael's are working on their Bronze, Silver, or Gold Award. Pictured here are students participating in their practice journey, hiking and learning winter camping skills at Seneca College in King City.

Reach for the Top

St. Michael's participates in the School Reach for the Top inter-school competition. We have three teams, one Intermediate and two Senior (A and B). We also have an intramural league for both Intermediate (Gr. 9–10) and Senior (Gr. 11–OAC) teams.

Reach for the Top is a general knowledge trivia competition similar to Jeopardy. In fact, Alex Trebek was the host for Reach for the Top thirty years ago. There are four players per team, along with additional back-up players and the team's coach.

The quizmaster asks the question and the first team to buzz in first must answer. If they get the answer wrong, then the other team gets a crack at it. Ten points are awarded for each correct answer. Occasionally, there are questions that can be worth twenty points and "What/Who am I?" questions worth up to forty points. The players may confer with each other before buzzing in except on assigned questions. There are three rounds of questioning with two breaks in between. On average, there are around 100 questions. Reference for questions usually comes from up-to-date works such as the Encyclopedia Britannica and the Canadian Encyclopedia.

Green *Council*

The Green Council is a committee of St. Michael's students that seeks to spread awareness about environmental issues in Canada and the World, while respecting God's creation as their core principle.

During the year of 2001–2002, the Council maintained a bulletin board with news, upcoming events, and articles about environmental issues. Articles were written for school newspapers, including *The Blue Echo* and *Faith in Action*.

The Council's focus during Spring was preparing for and running Earth Week activities (April 19–May 1). Prayers were written and read by Council members every morning of Earth Week, while raffle tickets were sold in the cafeteria for the grand prize of a solar-powered radio. Protecting God's creation, especially all life, is the fundamental principle that the Green Council acts by and hopes to spread throughout the school.

The Photography *Club*

The St. Mike's Photography Club is an excellent educational experience in the field of photography. It involves black and white film processing in the dark-room. Students learn the techniques of adjusting for under or over exposure during enlarging and development phases of printing as well as the processes to increase contrast using filters and timing of development.

The Photography Club documents the academic and extracurricular events at St. Michael's. The pictures are then developed into colour slides or videos used for presentation during the Athletic Awards Banquet and the Grades 7, 8 and 9 information nights.

Students learn audio-visual editing and mixing of video-tapes shot by club members throughout the year. (Mainly sports competitions ranging from cross country in September to baseball in June.) The moderator for this club is Mr. Ian Thompson and the club is open to members of all grades.

This year, the St. Michael's Drug and Alcohol Awareness Committee joined the *In the Driver's Seat* program and focused mainly on educating students about dangerous driving and in particular, the consequences of impaired driving.

The group established an Awareness Week, which began with a video, and guest speakers on the topic of the dangers associated with drinking. The following day, the Grade 11, 12, and OAC students were presented with *Impact 2000*, a media presentation that focused on the prevention of accidents resulting from dangerous and impaired driving. The week culminated with a games event in the lecture hall where students participated in awareness activities. In addition, the committee created a banner stating, "*St. Michael's supports safe driving because winners don't drink and drive*," designed by students and professionally manufactured, which will hang in the St. Michael's Arena. There were also presentations made to the junior-school students, an art contest, and awareness messages at the semi-formal and at the graduation formal.

As members of the *In the Driver's Seat* program, the students entered a competition with fifty-six other Toronto area schools, and were judged on the quality, originality and outreach of their campaign. The moment of truth came when these young men presented their yearlong campaign effort to the judges from the Toronto Public Health Department. In their debut year, the students placed in the Top Ten Schools category and won a multimedia presentation for St. Mike's from Mothers Against Drunk Driving (MADD).

The St. Paul's Outreach Program

The St. Paul's Outreach Program was a new program this year at St. Michael's. With the support of the SMCS parent council and the help and organization of Mrs. Dunsmore, a parent volunteer, and Mr. Fischer, twenty-five St. Michael's students ventured out every Tuesday to St. Paul's elementary school to tutor and mentor third-graders.

While helping the children with reading and writing, the tutors formed close friendships with each of their students. Both tutors and students discovered the value of hard work and determination. The tutors found that the experience was rewarding as they learned more about both their students and themselves.

Some highlights of the program included a magic show by Kelvin Kwong and the special graduation ceremony. During the ceremony, each of the third-graders received a certificate recognizing their achievement, a St. Michael's t-shirt, and a prayer card. We hope the program will continue to grow, involving more St. Michael's students and more schools.

In February, St. Michael's received a phone call from Sr. Margaret Feeley at St. Paul's Basilica. Familiar with St. Michael's because of our work with their Christmas food and gift basket program, Sr. Margaret asked St. Michael's to assist her in helping fill a need in downtown Toronto. She asked our school community to collect used hockey equipment to help outfit 110 seven-to-eighteen year-olds who are part of a youth hockey program in Regent Park that aims to get youth off the streets and into productive activities. Students, friends, and families of St. Michael's gathered enough equipment to outfit about twenty-five youngsters.

Debating

The Debating team at St. Mike's participates in numerous debating tournaments in a wide variety of debating styles, ranging from pro-con to cross-ex to parliamentary. The team is a regular participant in Pro-Con debates in all three divisions (Novice Gr. 9 & 10; Junior Gr. 10 & 11; Senior Gr. 12 & 13). St. Michael's is also a member of the Ontario Student Debating Union and takes part in a wide variety of invitational debates such as the Royal St. George's Tournament and the McGill High School Debating Tournament.

For those who are not interested in competitive tournaments but would still like to be involved, the debating team welcomes those as well. Non-competitive events include the Ontario Model Parliament, the Southern Ontario Model United Nations Assembly, intramural debates, speaking workshops and the occasional exhibition debate against a local girl's school.

Philosophy

The Blue Rhetorics

Social *Justice*

"Socially Just" is term which describes those who care for their neighbour. It is best expressed in Christ's parable of the Good Samaritan, a man who acted from the highest human motives; his obligation as neighbour, to another human. His priority of neighbour before economics or even his own personal convenience was held up to us by Christ as the way we should treat each other.

(l-r): Mr. M. Quinn, Peter Frost, Benedict Tomory, James Lee
 Julian Barkin, Anthony Mancini

Our Christian traditions demand that we always tell the truth. To condone a lack of justice or to be silent when acts lacking justice are being perpetrated on others is not to stand for or to tell the truth.

Our school stands for truth. That is what we teach. The Society for Social Justice teaches and enforces the truth. Members will write letters to political leaders, invite guest speakers to visit the school, and send money in relief of those who are not being shown justice.

After a season opening loss to St. Andrew's, the Kerry Blues won their next nine games including "come from behind" victories over Upper Canada College and Michael Power. They won their third straight TDCAA Championship with a win over Henry Carr. The Kerry Blues defeated York Region champions Markham Collegiate in the quarter finals of the Provincial Playoffs.

Fall
Blue Strikers

During the Fall 2001 season, St. Michael's fielded a competitive team that improved throughout the season. With a 5-4 season record, the Junior Strikers earned a playoff berth. Despite mediocre play in the playoff round robin, the Strikers made it to the semi-finals where they were defeated by Appleby College, the eventual CISAA champions. Coach Fischer is proud of his athletes' semi-final finish and thanks them for their hard work, dedication, and good sportsmanship throughout the season.

This year's edition of the Junior Blue Strikers was the youngest in recent memory. It was meant to be a year to rebuild for the future, but this squad proved otherwise. Starting the year off quite raw and inexperienced, this squad soon developed into a legitimate TDCAA contender. Led by their stunning defensive play and timely execution, the never say die Strikers won their pool easily and captured their quarterfinal and semifinal matches in dramatic fashion, with 5 set victories. The team fell just short in the finals, losing to powerhouse Francis Libermann in 5 sets. The boys performed above all expectations the whole season, and created a buzz in the school volleyball program once again.

Blue Strikers

This year's edition of the Blue Strikers proved to be a rebuilding year in every sense of the word. Boasting a Grade 9 setter, two returning starters and only one graduating player the team fared quite well against some of the better teams in the province. Next year the team should be vying for the CISAA Championships.

Balancing an aggressive dryland and on-hill training schedule with four CISAA ski meets and the TDCAA championships, the SMC Alpine ski team once again had a strong season on the slopes.

The final overall standings in the CISAA showed the U-14 A & B teams in second place, the Level I A & B teams in third place, and the Level II team in sixth place. In a nailbiter, the Level I team just missed a second consecutive TDCAA championship and finished second.
